
CUSTOM FINISH PRICING

All custom finishes start with some piece of inspiration from you. That inspiration can be a hand or computer drawn sketch on your frame design template, examples of a few other bikes you like, an abstract idea like a sunset or knitting pattern (both real examples!), or even just an in-depth conversation with us.

The examples below are intended to provide you with a sense for how much various levels of technical complexity cost, all simply based on how long they take to apply. We include three rounds of mock-ups for no charge as part of our custom design process. Major revisions past that point are priced separately based on how much time those revisions take. As always, contact us at kevin@fireflybicycles.com or 617-825-3473 with any questions.

Examples in the \$400-\$700 range: (click on image link)

Examples in the \$700-\$1200 range: (click on image link)
